

## Scholarship Application 2021 \$5000

At The Naked Peach one of our core values is giving back to our local community. We also believe in giving in a sustainable way. That is why we believe in giving scholarships to single moms and teens in need in the Philadelphia area. We believe that with hard work, effort, determination, the right mindset and valued skill sets in the marketplace you can lift yourself out of assistance based living. Poverty exists in the mind, the body and financially. Reading and keeping an open mind, keeping your body healthy through diet and exercise, saving, learning about money and the economy. These are all qualities to develop a sustainable, thriving and high quality life.
